- PO4:- Apply basic mathematical and statistical skills necessary for analysis of a range of problems in economics, actuarial studies, accounting, marketing, management and finance
- PO5:- This course calls for a student to choose majority of the courses relating to business depending on the interest of the student like Financial Accounting and Auditing, Banking and Finance, Economics, Business Management, Foreign Trade Practice & Procedures.
- PO6:- A Bachelor of Commerce can opt for jobs like Accountant, Finance Manager, Account executive, Operations Manager, Account Manager, Senior Accountant, and Financial Analyst Marketing Manager.

Program Specific Outcomes (PSO)

- PSO1:- The Students will be able to demonstrate progressive learning of various tax issues and tax forms related to individuals.
- PSO2:- Students will be able to demonstrate knowledge in setting up a computerized set of accounting books.
- PSO3:- Students will demonstrate progressive affective domain development of values, the role of accounting in society and business.

PSO4:- Students will learn relevant financial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.

PSO5:- Students will learn relevant managerial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.

PSO6:- Students will gain thorough systematic and subject skills within various disciplines of commerce, business, accounting, economics, finance, auditing and marketing.

PSO7:- Students will be able to recognize features and roles of businessmen, entrepreneur, managers, consultant, which will help learners to possess knowledge and other soft skills and to react aptly when confronted with critical decision making.

PSO8:- Students will be able to prove proficiency with the ability to engage in competitive exams like CA, CS, ICWA and other courses.

PSO9:- Students will acquire the skills like effective communication, decision making, problem solving in day to day business affairs.

PSO10:- Students will involve in various co-curricular activities to demonstrate relevancy of foundational and theoretical knowledge of their academic major and to gain practical exposure.

PSO11:- Students can also acquire practical skills to work as tax consultant, audit assistant and other financial supporting services.

Course Outcome

CLASS	SUBJECTS	OBJECTIVE
B.Com Sem 1st	Hindi Language	छात्र-छात्राओं में व्याकरण के बुनियादी ज्ञान, संप्रेषण, कौशल, सामाजिक सन्देश एवं भाषायी दक्षता इत्यादि का विकास करना
	English Language	To develop Proficiency in reading and writing English language.
	Environmental Studies	To acquire awareness of the environment as a whole and its related problems
	Financial Accounting	To Impart basic accounting knowledge as applicable to business.
	Business Communication	To develop effective business communication skills among the students.
	Business Mathematics	To enable the students to have such minimum knowledge of mathematics as is applicable to business and economics situations.
	Business Regulatory Framework	To provide a brief idea about the framework of Indian business laws.
	Business Economics	To acquaint the students with the principles of business economics as are applicable in business.
	Business Environment	To acquainting. The students with the emerging issues in business at the national and international level in the light of the policies of liberalisation and globalisation.

	Computerized Financial Accounts	To introduce the students to the basic of accounts and usage of tally for accounting purpose.
B.Com - 2nd year	Hindi Language	छात्र-छात्राओंमेंव्याकरण, हिंदी शब्दावली, लेखन इत्यादि का विकास करना
	EnglishLanguage	To enable students with better knowledge of English language for writing and speaking purpose.
	Corporate Accounting	This course enable the students to develop awareness about corporate accounting in conformity with the provisions of companies Act.
	Cost Accounting	This course exposes the students to the basic concepts and the tools used in cost accounting
	Principles of Business Management	This Course familiarizes the students with the basics of principles of management.
	Company Law	This objective of this course is to provide basic knowledge of the provisions Companies Act.2013, along with relevant case law.
	Business Statistics	It enable the students to gain understanding of statistical techniques as are applicable to business.
	Fundamentals of Entrepreneurship	It Provides exposure to the students to the entrepreneurial culture and industrial growth so as to preparing them to set up and manage their own small units.
B.Com - 3rd year	Hindi Language	छात्र-छात्राओंमेंहिंदी संरचना एवं भाषा का विस्तृत विकास करना
	EnglishLanguage	To provide better understanding on language for proper organizational communication process.
	COMPULSORY CORE COURSE	
	Income Tax	enables the students to know the basics of Income Tax Act and its implications.
	Indirect Tax	This course aims at imparting basic knowledge about major indirect taxes.
	Management Accounting	This course provides the students an understanding of the application of accounting techniques for management.
	Auditing	This course aims at imparting knowlege about the principles and methods of auditing and their applications.
	OPTIONAL GROUP - A	

Financial Management	The objective of this course is to help students understand the conceptual framework of financial management.
Financial Market Operations	This course aims at acquainting the students with the working of financial markets in India.
OPTIONAL GROUP - B	
Principal of Marketing	The Objective of this course is to help students to understand the concept of marketing and its applications.
International Marketing	This course aims at acquainting student with the operations of marketing in international environment.
OPTIONAL GROUP - C	
Information Technology and its i Applications in Business	The objective of the course is to familiarize the students with the innovation information technology and how it affects business. An understanding of the group rules of these technologies will enable the students to appreciate the nitty-gritty Commerce.
Essential of E-Commerce	The objective of this course is to familiarize the students with the basics of e-commerce and to comprehend its potential.
OPTIONAL GROUP - D	
Fundamentals of Insurance	This course enables the students to know the fundamentals of insurance.
Money & Banking System	This course enables the students to know the working of the Indian Money & banking system.

M.Com

PROGRAMME OUTCOME

PO1-: To attain Eligibility for Joining Research

PO2-: To attain Eligibility for applying examinations like SET, NET etc.

PO3-: To attain Eligibility for joining professional courses in Teaching.

PO4-: For Joining professional courses like CA/ICWA/MSW etc.

PO5-: To attain eligibility for applying KPSC, UPSC and other recruitment board examinations for which post graduation is the basic qualification.

Program Specific Outcomes (PSO)

- The Students will be able to demonstrate progressive learning of various tax issues and tax forms related to individuals.
- Students will be able to demonstrate knowledge in setting up a computerized set of accounting books. Students will demonstrate progressive affective domain development of values, the role of accounting in society and business.
- Students will learn relevant financial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.
- Students will learn relevant managerial accounting career skills, applying both quantitative and qualitative knowledge to their future careers in business.
- Students will gain thorough systematic and subject skills within various disciplines of commerce, business, accounting, economics, finance, auditing and marketing.
- Students will be able to recognize features and roles of businessmen, entrepreneur, managers, consultant, which will help learners to possess knowledge and other soft skills and to react aptly when confronted with critical decision making.
- Students will be able to prove proficiency with the ability to engage in competitive exams like CA, CS, ICWA and other courses. Students will acquire the skills like effective communication, decision making, problem solving in day to day business affairs.
- Students will involve in various co-curricular activities to demonstrate relevancy of foundational and theoretical knowledge of their academic major and to gain practical exposure.
- Students can also acquire practical skills to work as tax consultant, audit assistant and other financial supporting services. Students will be able to

do higher education and advance research in the field of commerce and finance.

Course Outcome

M.Com Sem 1st	Managerial Economics	To develops managerial perspective to economic fundamentals aids to decision making under given environmental constraints.
	Advanced Accounting	The objective of this course to expose students to accounting issues and practices such as maintenance of company accounts and handling accounting adjustments.
	Income Tax Law and Accounts	The objective of of this course is to help students understand and conceptual framework of income tax.
	Statistical Analysis	The objective of this course to help students learn the application of statistical Tools and techniques for decision making.
	Corporate Legal Frame Work	Provide knowledge of relevant provisions of various laws influencing business operations.
M.Com Sem 2nd	Business Economics	This course develops managerial perspective to economic fundamentals as aids to decision making under given environmental Constraints.
	Specialized Accounting	The objective of this course is to expose students to accounting issues and practices such as maintenance of company account and handling accounting adjustments.
	Tax Planning and Management	This course AIMS at making students conversant with the concept of Corporate Tax Planning and indirect tax laws as also their implications for corporate management.
	Advanced Statistics	The objective of this course is to help student learn the application of statistical Tools and techniques for decision making.
	Business Laws	The objective of this course is provide knowledge of relevant provisions of various laws influencing business operations.
M.Com Sem 3rd	Management Concept	The objective of this course is to help student understand and conceptual framework of Management and organizational behavior.

	Organizational Behavior	The objective of this course is to help student understand and conceptual framework of Management and organizational behavior.
	Advance Cost Accounting	This course exposes the students to the basic concepts and tools used in cost accounting.
	Management Accounting	The objective of this course is equaints student with the accounting concepts Tools and techniques for managerial decision.
	Accounting for managerial decision	The objective of this course is equaints student with the accounting concepts Tools and techniques for managerial decision.
M.Com Sem 4th	Optional Group(A) Marketing	
	Principle of Marketing	The objective of this course is to facilitate understanding of the conceptual framework of marketing and its applications in decision making under various environmental constraints.
	Advertising & Sales Management	
	Marketing Research	
	International Marketing	
	Optional Group(B) Management	
	Financial Management	The objective of this course is to help students of understand the concept framework of financial management and its applications under various environmental constraints
	Personnel Management	
	Production Management	
	Strategic Management	
	Optional Group(C) Banking and Insurance	
	Banking Practices	

	Banking Institution in India	This course enables the students to know the working of the Indian banking system and fundamentals of insurance.
	Life Insurance	
	General Insurance	
Optional Group(D) Taxation and Accounting		
	Direct Tax in India	This course enables students to know about the various Taxation Methods and its rules and Accounting of Tax.
	Integrated Goods & Service Tax	
	Accounting in Service Sector	
	Accounting Methods	

BBA

PROGRAMME OUTCOME

OBJECTIVES OF THE PROGRAMME

1. To provide the basic and essential knowledge regarding various activities undertaken and necessary to run socially responsible business organization
2. To teach certain basic skills and aptitude to be helpful in taking up any particular activity in a business
3. To inculcate global view of the industrial and organizational establishments and their functions which support the business system

* Minimum passing marks in subject BCA301 is 40% of total marks 150(i.e. Total of Part I + Part II + Part III marks of BCA301)

Program Outcomes (PO)

After Completing Bachelors in Computer Applications (BCA) students are able to improve their fundamental computer literacy, their basic understanding of operative systems and a working knowledge of software commonly used in academic and professional environments by using word processor, spreadsheet and other application software. Students will also develop skills to present ideas effectively and efficiently through professional presentations - Designing and delivering an effective presentation and developing the various IT skills to electronic databases. Student can use the Systems Analysis Design paradigm to critically analyze a problem and solve problems (programming networking database and Web design) in the Information Technology environment. Function effectively on teams to accomplish a common goal. BCA program enables student Develop IT-oriented security issues and protocols and make them able to design a web page.

PO1: To work effectively both as an individual and a team leader on multi disciplinary projects.

PO2: Inculcates the ability to analyze, identify, formulate and develop computer applications using modern computing tools and techniques.

PO3: Improves communication skills so that they can effectively present technical information in oral and written reports.

PO4: Prepares to create design innovative methodologies for solving complex/ real life problems for the betterment of the society.

To integrate ethics and values in designing computer application.

Program Specific Outcomes (PSO)

- To shape the students to meet the requirement of Corporate world and Industry standard.
- To engage in professional development and to pursue post graduate education in the fields of Information Technology and Computer Applications.
- To provide the students about computing principles and business Practices in software solutions, outsourcing services, public and private sectors.
- Develop practical skills to provide solutions to industry, society and business. Understand the concepts of key areas in computer science.
- Analyze and apply latest technologies to solve problems in the areas of computer applications.
- Analyze and synthesis computing systems through quantitative and qualitative techniques. Communicate effectively in both verbal and written form.
- To prepare graduates who will have a successful professional career in software industry, government, academia, research, and other areas where computer applications are deployed.
- To become a software entrepreneur.
- To promote the use of open source technology.
- To prepare broadly educated, ethical and responsible citizens.

Course Outcomes (COs):

- The curriculum prepares students for a career in software industry by equipping the students with the latest revolution in technology.
- The program aims to educate students in Computer Science and Information Technology with emphasis on hands-on practical training in software development.
- Creates the ability to design a computer application by considering realistic constraints such as safety, security and applicability
- Prepares students to work professionally pertaining to ethics, social, cultural and cyber regulations

Post Graduate Diploma Computer Application

PT. RAVISHANKAR SHUKLA UNIVERSITY, RAIPUR (C.G.)

POST GRADUATE DIPLOMA IN COMPUTER APPLICATION
[DURATION – ONE YEAR – FULL TIME]

The duration of the course shall be one year consisting of two semesters. There shall be three theories and two practical courses in the each semester.

FIRST SEMESTER

PGDCA-101 : Fundamentals of Computers.
PGDCA-102 : Office Automation and Tally.
PGDCA-103 : Programming in C
PGDCA-104 : Practical based on PGDCA-102.
PGDCA-105 : Practical based on PGDCA-103.

Second Semester

PGDCA-106 : Programming in VB .Net
PGDCA-107 : Database Management Systems.
PGDCA-108 : Internet and Web Technology.
PGDCA-109 : Practical based on PGDCA106
PGDCA-110 : Practical based on PGDCA107 and PGDCA-108

Program Outcomes (PO)

PGDCA equips the students with skills required for designing, developing applications in Information Technology. Students will able to learn the latest trends in various subjects of computers & information technology. PGDCA program is aimed towards building prospective career in the field of computer application. The program is designed with the objective to provide knowledge and skills in the various aspects of computer applications and core programming. Students will also be trained in the latest trends of information technology.

PO1: The Goal of Program to prepare basic computer Knowledge and Languages in one year.

PO2: Analyze the System and maintain the relationship.

PO3: Understanding different hardware & software specification.

PO3: Understanding application of Different software needed for industrial areas.

PO4: To identify, software and hardware knowledge.

PO5: To utilize the techniques, skills & basic programming tools ,software development practice.

PO6: Effective Computer Skills and development personality.

Program Specific Outcomes (PSO)

- Students gain thorough understanding about critical concepts like object oriented techniques, programming languages & applications development.
- This program helps learners acquire required skills in Information Technology.
- The curriculum of this program ensures that learners gain thorough understanding about critical concepts like database, core java, programming, etc.

Course Outcomes (COs)

- The curriculum prepares students for a career in industries by equipping the students with the basic technology.
- The program aims to educate students in Computer Science and Information Technology with emphasis on hands-on practical fundamentals.
- Creates the ability to work with computer application by considering realistic constraints such as safety, security and applicability.

Diploma in Computer Application

PT. RAVISHANKAR SHUKLA UNIVERSITY: RAIPUR (C.G.)
SCHOOL OF STUDIES IN COMPUTER SCIENCE

DIPLOMA IN COMPUTER APPLICATION, 2019-2020
[DURATION - ONE YEAR - PART TIME]

The duration of the course shall be one year consisting of two semesters. There shall be three theory and one practical course in the each semester. There shall be grading system of awards.

FIRST SEMESTER: DCA101 : Essential of Information Technology and OS
 DCA102 : Essentials of Office Automation.
 DCA103 : Programming in 'C' Language
 DCA104 : Practical based on DCA102 & DCA103.

Second Semester - DCA105 : GUI - Programming in Visual Basic.
 DCA106 : E- Commerce
 DCA107 : HTML & Internet Applications.
 DCA108 : Practical based on DCA105 & DCA107

Program Outcomes (PO)

DCA equips the students with skills required for designing, developing applications in Information Technology. Students will able to learn the latest trends in various subjects of computers & information technology. DCA program is aimed towards building prospective career in the field of computer application. The program is designed with the objective to provide knowledge and skills in the various aspects of computer applications and core programming. Students will also be trained in the latest trends of information technology.

PO1: The Goal of Program to prepare basic computer Knowledge and Operational proficiency.

PO2: Analyze the System and applications for general purpose.

PO3: Understanding different hardware & software specification.

PO4: Understanding application of Different software needed for industrial areas.

PO5: To get basic software and hardware knowledge.

PO6: To utilize the techniques, skills& basic programming tools, software development practice.

PO7: Effective Computer Skills and development personality.

Program Specific Outcomes (PSO)

- Students gain thorough understanding about critical concepts like object oriented techniques, programming languages & applications development.
- This program helps learners acquire required skills in Information Technology.
- The curriculum of this program ensures that learners gain thorough understanding about critical concepts like Tally, Basic C programming, etc.

Course Outcomes (COs):

- The curriculum prepares students for a career in industries by equipping the students with the basic technology.
- The program aims to educate students in Computer Science and Information Technology with emphasis on hands-on practical fundamentals.
- Creates the ability to work with computer application by considering realistic constraints such as safety, security and applicability.
