2. Read the following passage and answer the questions that follow it : 5

It was part of Gandhiji's philosophy to have regard for other's faith. His outlook arose from his own principles of truth and non-violence. He saw the truth behind all religious faiths. His love for humanity taught him to treat all as his brothers. This was the basis of his secularism, which we have accepted as the creed of the public of India. It was his firm faith in the twin concept that made untouchability hateful to him. He cried out in great pain that if Hinduism did not give up untouchability Hinduism had no future. We who are the inheritors of his teachings should search our hearts and see how far we have honoured Gandhiji's philosophy in our day-to-day life.
